...

Three hundred and 50 thousand people visited the 51st annual Paris Air Show last month. Among the 23 hundred exhibitors from 48 countries--a delegation from the Honeycomb Company of America, a business tucked away off Whitfield Road just north of the airport.

...

And here in Sarasota, Honeycomb employs a hundred people--and they're hoping after this trip to France a few weeks ago, they'll be able to hire a few more.

...

Honeycomb Company of America, Inc., was one of 17 Florida companies that attended the show according to Governor Rick Scott's Office. The companies coordinated with Enterprise Florida. Governor Scott says the companies reported a combined projected export sales of \$151 million dollars due to the trip.
